3/24

Dear Robert,

Thank you for your rapid response to my subscription renewal and Baldhead request. I have been very pleased with your newsletter and am always excited when the next one arrives. I had intended (still thinking about it) to build an add under keyboard unit compatible with the Blue Ram hardware and software. The Astrovision announcement has slowed my activities in that area (for a while at least).

Enclosed is a check for $36.50. Please send me a copy of "Manual of Hardware and Software" and the listing of the Bally Basic cartridge. Both are mentioned on page 12 of "Arcadian" vol 3.

Thank you.
